Education

University of San Carlos

Bachelor of Science in Information Technology

Talamban, Cebu

2020 - July 2026

Experience

Lexmark Research and Development Corporation (LRDC)

Cebu Business Park, Cebu

IT Operations Student Intern | A subsidiary of Xerox Corporation September 2025 – February 2026

- Gained hands-on experience in enterprise IT operations, automation, and networking within a production environment
- Developed an automated attendance reporting system using Microsoft Power Automate, reducing manual reporting effort and improving data accuracy
- Configured and troubleshooted Cisco devices (2970, 3745, 3750G, 4510R-E), including VLAN setup, OS recovery, and secure erasure
- Supported CMDB validation and network deployment, including access point installation and layout planning

Projects

PannTech POS System (Vue.js, Django REST Framework, MongoDB Atlas)

Full-stack POS ecosystem with offline-first architecture for reliable transactions.

- Developed cashier, admin, and customer-facing modules for sales, inventory, and user management
- Implemented local database fallback to maintain functionality during connectivity issues

PadQ (Next.js, Firebase)

Real-time queue management system using a paddle-style rotation algorithm for fair gameplay.

- Automated player rotation, matchmaking, and court assignment to reduce downtime
- Implemented Firebase real-time synchronization for live queue updates

Attendance Tracker (Microsoft Power Automate)

Workflow automation tool for extracting and summarizing work-hour data.

- Built automated workflows to process email data and generate weekly attendance reports

Skills & Interests
